Value Added Services

Kit-To-Stock or Inventory Rework

Physically preparing kits and placing them into inventory usually provides savings for higher volume or predictable volume bundles. Also it allows custom packaging, presentation preferences, etc., whereas pick/pack procedures do not. All kits (units) must be barcoded as part of the kitting procedure prior to becoming available for order processing.

Projects must be scheduled in advance. Standard hours of operation are 8:00 am – 5:00 pm, Monday – Friday, excluding scheduled holidays. Projects that require beyond standard hours are subject to a 150% premium:

Kitting/Assembly Project Request	\$75 per occurrence
Hourly Labor, quarter hour intervals	\$40.00 / hour
Work space, use of tables, etc.	free
Materials	cost +25%

There is a **\$125.00** invoice minimum **per billing cycle**, which is twice monthly, effective the 15th day and last day of each month. Service begins on the execution date of the Service Agreement.

Lot Number & Expiration Date Tracking

If desired, we can record lot and expiration date information on inbound shipments. The information will be married to the bulk storage locations. Due to FIFO (first in - first out) inventory flow, the lot numbers will be associated as such for direct to consumer orders. For bulk B2B orders, LOT selection vs FIFO is available:

Record LOT/EXP at Inventory Receipt Processing	\$10 / LOT / SKU
--	------------------

Returns Processing & Shipping

Undeliverable orders (i.e., refused delivery) that arrive at our facility will be processed and placed back into normal inventory provided there is no damage. For authorized returns, inventory that passes cursory inspection will be placed back into normal inventory. Failed inventory will be commingled into one master "QUARANTINED" inventory, for which you may have rework scheduled to make compliant as saleable inventory. Or you may opt to flush all quarantined inventory to your manufacturer or supplier, or request disposal via communication.

Undeliverable Order Processing	Outbound Handling Cost + 25%
Authorized Returns (RMA)	\$5 / item
Return Shipping/Postage (<=1 lb USPS, > 1 lb via UPS/FedEx for prepaid label (optional in LOMACS RMA creation))	Warehouse negotiated rates + 15%
